

MANUNET TRANSNATIONAL CALL 2018

GUIDELINES FOR APPLICANTS

INDEX

1. What is MANUNET?	2
2. CALL ANNOUNCEMENT	2
2.1. Participating countries/regions.....	2
2.2. Objectives and Topics	3
2.3. Eligible Project Structure.....	5
2.4. Project Budget and Size	6
2.5. Project Duration.....	6
2.6. Dates and Deadlines.....	6
2.7. Funding Rules.....	6
3. APPLICATION PROCEDURE	7
3.1. First stage: pre-proposals	7
3.2. Second stage: full proposals	8
4. DECISION	9
4.1. Funding.....	9
5. MONITORING	10
5.1. Regional/National Project Monitoring	10
5.2. Change in Active Projects	10
Annex 1: Evaluation criteria	11
Annex 2: National/regional call conditions – Overview	12
Refer to National/Regional Annex of Funding Programmes for further details	12
Annex 3: National/regional Funding Programmes and contact points	13

1. What is MANUNET?

MANUNET is a network of Governments under the European Horizon 2020 Programme targeted towards achieving co-ordinated calls in order to finance R&D in Manufacturing.

MANUNET is funding transnational research projects in the field of Manufacturing by offering coordinated calls from the participating regional & national governments.

The main objective of MANUNET is to strengthen Europe's industrial capacities and business perspectives with special focus on SMEs (SMEs as defined in the Annex 1 of the Commission Regulation No 651/2014¹) by establishing cross-border partnerships through the mentioned co-ordinated calls. Added regional/national value through this transnational co-operation is one of the critical success factors for transnational project support within the MANUNET ERA-NET frame.

2. CALL ANNOUNCEMENT

2.1. Participating countries/regions

The countries / regions listed below (and referred to as programme participants) are participating in MANUNET 2018 Call. Applicants from these countries / regions may expect funding through MANUNET programme. Applicants from other countries / regions may participate in the project consortia at their own expenses.

¹ Enterprises are qualified as micro, small and medium-sized enterprises (SMEs) if they fulfill the criteria laid down in the Annex 1 of the Commission Regulation No 651/2014 which are summarized in the table below. In addition to the staff headcount ceiling, an enterprise qualifies as an SME if it meets either the turnover ceiling or the balance sheet ceiling, but not necessarily both.

Enterprise category	Headcount	Turnover	or	Balance sheet total
medium-sized	< 250	≤ € 50 million		≤ € 43 million
small	< 50	≤ € 10 million		≤ € 10 million
micro	< 10	≤ € 2 million		≤ € 2 million

Countries:

Ireland
 Israel
 Luxembourg
 Norway
 Romania
 Russian Federation
 Spain
 Turkey

Regions:

Asturias (ES)
 Basque Country (ES)
 Castilla y León (ES)
 Catalonia (ES)
 Gelderland (NL)
 Navarra (ES)
 Noord-Brabant (NL)
 Overijssel (NL)
 Piedmont (IT)
 Puglia (IT)
 Wallonia (BE)
 Western Greece (EL)

2.2. Objectives and Topics

The strategic objective of the MANUNET Call 2018 is to enhance the competitiveness of Europe's Manufacturing Industry by supporting the funding of Manufacturing research projects performed by enterprises and their strategic partnerships. Projects will typically be smaller than projects submitted to the EU Framework Programme and they will benefit from accelerated funding decisions.

The funding objectives of the call are trans-national application oriented and high risk R&D projects related to Manufacturing. The project proposals must clearly demonstrate:

- Transnational, collaborative R&D with a significant degree of innovation and scientific and technical risk
- SME strong participation
- Market orientation
- Application and practical use of manufacturing technologies
- Expertise of the project partners in their respective fields of competence
- Added value through transnational cooperation
- Scale of impact and market positioning of the applicant

The MANUNET Call 2018 for proposals includes all fields in Manufacturing, structured in the following topics:

1. Knowledge-based engineering, information and communication technologies for manufacturing, including technologies for Industry 4.0 (for example industrial robotics, computer-aided engineering and design, automated manufacturing, zero defect manufacturing, product lifetime management, cyber-physical systems, IoT, control, big-data, analytics, connectivity and mobility, augmented reality, cyber security for processes, etc.).
2. Manufacturing technologies for environmental and energy applications including resource efficiency and recycling.
3. Adaptive manufacturing technologies including processes for removing, joining, adding, forming, consolidating, assembling.
4. Additive manufacturing (for example technologies, materials, products etc.)
5. New materials for manufacturing (alloys, lubricants, coatings, textile fibres, construction, composites, insulation, etc.).
6. New manufacturing methods, components and systems (development of demonstrators, devices, tooling and equipment, logistic systems, etc.).
7. Other technologies, products and services related to the manufacturing field.

The following figure indicates the supported topics per participating country/region.

Region/Country	Topics per Region/Country						
	1 Knowledge-based engineering, ICT, Industry 4.0.	2 Manufacturing technologies for environmental and energy applications	3 Adaptive manufacturing technologies.	4 Additive manufacturing	5 New materials for manufacturing	6 New manufacturing methods, components and systems	7 Other technologies, products and services.
ADE (Castilla y León-ES)	•	•	•	•	•	•	•
Government of Navarra (Navarra-ES)	•	•	•	•	•	•	•
Provincie Gelderland (Gelderland- NL)	•	•	•	•	•	•	•

SPW-DGO6 (Wallonia region-BE)	•	•	•	•	•	•	•
Luxinnovation (Luxembourg)	•	•	•	•	•	•	•
UEFISCDI (Romania)	•	•	•	•	•	•	•
Enterprise Ireland (Ireland)	•	•	•	•	•	•	•
Finpiemonte (Piedmont-IT)	•	•	•	•	•	•	•

However, the respective regional/national thematic programme focus must be taken into account. To obtain detailed programme priorities it is strongly recommended to check Annex 2 and Annex 3 or contact your regional/national funding agency.

2.3. Eligible Project Structure

All MANUNET projects should be designed on the following principle:

- Consortia must comprise **at least 2 separate legal entities from 2 different EU Member States or Associated Countries** participating in the call.
- Consortia must include at least **2 independent SMEs** which can belong to the same country/region.
- Large companies, academic research groups, universities or other public organisations may also participate according to their regional/national financing regulations, as long as there are 2 independent SMEs.
- The composition of the consortium should be efficient in size in order to accomplish the objectives proposed. However, we expect small medium projects with no more than 4 or 5 partners.

2.4. Project Budget and Size

No overall budget limits have been defined at MANUNET level, but regional/national limits regarding the level of funding will apply. Efficient and small to medium size consortia projects are expected (2-3 countries).

2.5. Project Duration

The project duration should be appropriate to the objectives of the research, but not exceeding 24 months in total.

2.6. Dates and Deadlines

ACTION	Date
Call opening	Wednesday 30th January 2018
Deadline for pre-proposals	Tuesday 23th March 2018, 17:00 (CET)
Feedback to applicants	May 2018
Deadline for full proposals	Thursday 12 th July 2018, 17:00 (CET)
Communication of the evaluation results	Early October 2018
Start of projects	Contact national/regional agency

2.7. Funding Rules

Funding is provided according to the “nationality principle”, meaning that each participating national/regional funding agency funds their respective national/regional applicants in a particular project partnership. Funding is subject to national/regional eligibility regulations and project partners should check their eligibility for funding prior to submission (see Annex 2 and Annex 3).

For some countries/regions additional documents or data may be required by the indicated national/regional contact points.

Applicants are strongly advised to contact their regional/national contact person (Annex 2) and request information on the specific national/regional requirements.

3. APPLICATION PROCEDURE

The MANUNET application process will be in 2 stages. Proposals must be prepared and submitted electronically using the MANUNET electronic submission system (ESS) accessible at (<https://submission.manUNET.net>). For more information about the submission procedure a ESS User's Manual is available under https://submission.manUNET.net/preproposal/Content/files/2018_ESS_Users_manual.pdf

The ESS provides proposal templates to be filled in. Only fully completed proposals can be submitted. A full explanation of the proposal template and information requested can be found in the [ESS User's Manual](#). The ESS will generate a .pdf document of your proposal for download.

The coordinator should fill in the webtool on behalf of the whole consortium and submit the proposal. Thus, only one online proposal per project is needed. Only proposals submitted in the ESS before the closure of the call will be considered for evaluation.

Proposals shall be submitted in English. Other languages shall not be accepted. All budget data indicated in the online form has to correspond to those indicated in the regional/national application.

National/regional funding organisations and evaluators shall maintain strict confidentiality with respect to the proposals and the whole evaluation process.

3.1. First stage: pre-proposals

Submission: In the first stage (mandatory for all applicants), the Coordinator of the project has to submit electronically a pre-proposal through the ESS (<https://submission.manUNET.net>).

Content of the pre-proposal on-line form: the pre-proposal form briefly addresses summary, consortium description, project merits, cost calculation and results and exploitation. The Pre-Proposal gives an overview on the whole project. A more detailed description of the pre-proposal on-line template is available in the ESS User's Manual.

Evaluation: Pre-proposals that are submitted correctly and within the deadline will be checked for eligibility at transnational level (see 2.3 Eligible project structure) by the Call Secretariat. Following this, each funding agency will formally check proposals involving applicants from their country/region against national/regional eligibility criteria.

The Pre-Proposal phase will be used to guarantee that only high quality proposals which are in line with national/regional requirements are invited to the Full-Proposal stage: in phase 1 the funding agencies will verify the preliminary quality of proposals.

In order to ensure a reasonable balance of requested and available national/regional budgets, all Funding Agencies will be requested to avoid oversubscription in the full proposal phase exceeding a factor of 2.5.²

Applicants will be provided with feedback after the review of their Pre-Proposal, including a recommendation to submit (or not) a full proposal.

3.2. Second stage: full proposals

Submission: Coordinators of the projects eligible for the second step of the MANUNET assessment procedure will be able to access the electronic submission system in order to submit the full proposal.

As a rule, changes with respect to the objectives, consortium or project costs of the pre-proposal will not be allowed in the full proposal (unless they will be agreed and authorised by the funding agencies). Any other change from pre to full proposal must be first confirmed and approved by the involved funding organisations.

Content of the full proposal on-line form: the full proposal contains the following sections: summary, consortium description, description of work, cost calculation and results and exploitation. More details are expected with explanations in depth. The full proposal gives an overview of the whole project and describes all national project parts.

A more detailed description on the full-proposal on-line template is available in the ESS User's Manual.

² Oversubscription factor: the ratio between the total requested funds from all the applicants from a given country or region, and the amount available for the corresponding funding agency in that call.

Project monitoring: in the full-proposal form in the ESS, project coordinators will have to consent to provide the data that will be required for the monitoring of the project, both during the project implementation and after the project ends.

Evaluation: Only full proposals that are submitted correctly and within the deadline will be considered for evaluation. Full proposal will be evaluated at national/regional level according to the following common criteria: excellence, impact, quality and efficiency of implementation. Further evaluation rules are set at regional/national level (see regional/national calls). Regional/national evaluation results will be shared and discussed by all the funding agencies involved, thorough a transnational coordination meeting (TCT). The decision for granting will result from the transnational coordination meeting and will be based also on the amount of budget made available by each funding agency.

Common evaluation criteria are fully described in Annex 1.

Project coordinators will be informed about the selection/rejection decision by the Call Secretariat.

4. DECISION

4.1. Funding

4.1.1. Contract

Funding contracts are dealt directly between the project partners and their national/regional funding agencies (programme owners).

4.1.2. Start and Installments

A consortium agreement between the project partners is required for funding (after final funding decision). The purpose of the consortium agreement is to clarify:

- responsibilities of the partners;
- decision processes inside the project;
- management of any change of partners, in agreement with regional/national rules;
- IPR issues.

There is no formal requirement on how to draft a Consortium Agreement for a proposal in this Call. A template and additional material can be found at <http://www.desca-2020.eu/latest-version-of-desca>

5. MONITORING

5.1. Regional/National Project Monitoring

The progress of each individual contract will be monitored by the respective regional/national agencies. The respective coordinating agency will perform a leading role in the project monitoring.

5.2. Change in Active Projects

Any substantial change in an ongoing project must be reported immediately to the involved agencies. The project partners should be aware that changes might have effects on funding. The involved agencies can also report any substantial change with regard to the status of partners from their region/country.

Annex 1: Evaluation criteria

Transnational evaluation criteria

EXCELLENCE “Scientific and/or technological excellence - Quality of the transnational project”	IMPLEMENTATION “Quality and efficiency of the implementation and the management”	IMPACT “Potential impact”
<ul style="list-style-type: none"> • Clarity and pertinence of the objectives • Credibility of the proposed approach • Soundness of the concept • Extent that proposed work is ambitious, has innovation potential, and is beyond the state of the art 	<ul style="list-style-type: none"> • Coherence and effectiveness of the work plan, including appropriateness of the allocation of tasks and resources; • Quality and relevant experience of the individual applicants • Quality of the consortium as a whole (including complementarity, balance) • Appropriateness of the management structure and procedures 	<ul style="list-style-type: none"> • Contribution, at the transnational [and/or European] level, to enhancing innovation capacity and integration of new knowledge • Contribution to strengthening the competitiveness and growth of companies by developing innovations meeting the needs of European and global markets by delivering such innovations to the markets; • Contribution to any other environmental and socially important impacts (not already covered above) • Effectiveness of measures for the dissemination and/or exploitation of trans-national projects results and management of intellectual property

In addition to the above listed criteria, each agency can define its own evaluation criteria for the selection of proposals and will adopt specific criteria for prioritization if necessary.

Refer to National/Regional Annex of Funding Programmes for further details

Annex 3: National/regional Funding Programmes and contact points

Catalonia (ES)

Name of the programme

Nuclis Internacionals. Programes Europeus ERA-net MANUNET III

Funding agency

ACCIÓ_Agència per a la Competitivitat de l'Empresa

Beneficiaries

Small, medium and large companies can be funded

Thematic restriction and other remarks

None

Type of research eligible for funding

Industrial research and Experimental development in the field of manufacturing

Maximum duration of projects

24 months

Eligible costs

Personnel costs, external collaborations for R&D activities related to the project, equipment (where applicable), IPR activities (for SME only), other costs such as travelling, overheads and management costs are eligible. Overheads cannot be higher than 15% of the personnel costs.

Limits of funding

The minimum fundable budget is €150.000 and the maximum grant amount is € 200.000 per project, independently form the number of Catalan partners.

Other eligibility requirements

Beneficiaries must have a stable financial situation

The starting date of the project must be after the proposal submission

Beneficiary companies have to be registered in Catalonia. The Catalan part of the proposed work plan must be developed in Catalonia.

Beneficiary companies must have more than one year of lifetime at full-proposal submission date.

Type of funding (grant/loan/mixed/other)

Funding is provided as a grant

Funding rate

Maximum funding rates are shown in the table below. Please note that effective rates are defined according to each single project specificities. A project may comprise activities falling under different categories.

	Small enterprise	Medium enterprise	Large enterprise
Industrial Research	50%	50%	50%
Experimental development	45%	35%	25%

Geographical coverage

Catalonia

National/regional deadlines

www.accio.gencat.cat

Contact point

David Marco (Manager of ERA-Net Manunet Programme)

Mail: dmarco@gencat.cat Phone: +34 935 538 928

Castilla y León (ES)

Name of the programme	Grants for international R&D projects in the framework of ERA –NETS
Funding agency	ADE
Beneficiaries	Companies operating in Castilla y León. Research organisations and universities are welcome as subcontractors
Thematic restriction and other remarks	Thematic Priorities included in RIS3 of Castilla y León
Type of research eligible for funding	Industrial research and experimental development projects involving effective international collaboration
Maximum duration of projects	not restricted, recommended up to 3 years
Eligible costs	Staff costs (only staff participating in the project) External collaborations for R&D activities related to the project Costs for materials, supplies, etc. needed for the project. Other costs such as travelling, management and audit costs. Taxes are not eligible
Limits of funding	Maximum grant amount: 250.000€ Maximum two projects/company/call
Other eligibility requirements	Minimum total budget: 150.000€ Projects must be feasible under technical, economic and financial criteria The project must start after the regional application has been submitted Applicants from Castilla y León are requested to send an eligibility form to ADE maximum 10 days after the deadline for pre-proposal submission.
Type of funding (grant/loan/mixed/other)	Grant
Funding rate	For small-sized enterprises: 60% (experimental development) - 80% (industrial research) For medium-sized enterprises: maximum 50% (experimental development) - 75% (industrial research) For large enterprises: maximum 40% (experimental development) - 65% (industrial research)
Geographical coverage	Castilla y León
National/regional deadlines	The regional call will be published after pre-proposals evaluation (July 2018)
More information available at	http://www.empresas.jcyl.es/
Contact point	Isabel Gobernado Mitre e-mail: gobmitma@jcyl.es (Phone: +34 983 324242)

Basque Country (ES)

Name of the programme	HAZITEK
Funding agency	Basque Government
Beneficiaries	Small, medium and large companies, associations and foundations of companies. Research centres, universities and public entities only if subcontracted by the beneficiaries.
Thematic restriction and other remarks	Proposals must fit within Basque Country's strategic specialization areas defined in the PCTI 2020: advanced manufacturing, energy, bio-sciences-health, eco-systems, urban living space, food, creative and cultural industries.
Type of research eligible for funding	Industrial research, experimental development.
Maximum duration of projects	2 years (revised annually)
Eligible costs	Personnel costs, overheads (15% of direct costs), subcontracting, consumables, equipment, travel costs, audit costs (up to 1.500€)
Limits of funding	Maximum amount of funding: 250,000€ funding per beneficiary and per year. Minimum annual budget for a Basque company: 50.000 € to be eligible
Other eligibility requirements	Beneficiary must: be registered in the Basque Country have a stable financial situation be up-to-date of its tax duties
Type of funding (grant/loan/mixed/other)	Grant
Funding rate	Up to 30% of eligible costs.
Geographical coverage	Basque Country
National/regional deadlines	Basque partners must submit the proposal (in Spanish or Basque) to the regional programme in 2019 call. Deadlines are defined yearly
More information available at	http://www.euskadi.eus/gobierno-vasco/-/ayuda_subvencion/2017/hazitek-2017/ (to be updated)
Contact point	Cristina Ugarte cugarte@innobasque.eus +34 94 4209488

Noord-Brabant (NL)

Name of the programme	Co-Financiering Europese Programma's
Funding agency	Provincie Noord-Brabant
Beneficiaries	Small, medium and large companies, associations and foundations of companies. Research centres, universities and public entities only if subcontracted by the beneficiaries
Thematic restriction	Economisch Programma Brabant 2020
Type of research eligible for funding	Application oriented industrial research and experimental test- and development projects on Flexible Manufacturing as 3D Printing, Robotica involving effective international collaboration.
Maximum duration of projects	24 months
Eligible costs	Staff costs (only staff participating in the project) External collaborations for R&D activities related to the project Costs for materials, supplies, etc. needed for the project. Other costs such as travelling, management and auditory costs till a maximum of € 5.000,- .
Limits of funding	Maximum grant amount: 60.000€ per call Maximum two projects/company/call The starting date of the project must be after the proposal submission Taxes are not eligible
Type of funding (grant/loan/mixed/other)	Grant
Funding rate	50%
Geographical coverage	Noord- Brabant (beneficiary companies have to be registered in the Province of Noord-Brabant)
National/regional deadlines	The regional deadline will be fixed after selection of the proposals recommended for the second stage.
More information available at	-
Contact point	Bob van Dijk, uvdijk@brabant.nl , +31 736812305

Spain (ES)

Name of the programme	International Technological Cooperation Projects
Funding agency	CDTI
Beneficiaries	Companies established and carrying out R&D activities in Spain. Other entities such as universities, public research institutions, technological centres, and other private non-profit institutions could participate under subcontracting by Spanish companies.
Thematic restriction and other remarks	None
Type of research eligible for funding	Industrial research and experimental development projects involving effective international collaboration
Maximum duration of projects	3 years
Eligible costs	<ul style="list-style-type: none"> - Personnel. - Instrument and equipment costs, to the extent and during the period in which they are used for the research project. - Contractual research costs, technical knowledge and patents bought or licensed from outside sources at market prices, and costs for consulting and equivalent services intended exclusively for the research activity. - Other operating expenses, including costs for material, supplies and similar products, which result directly from the research project. - Indirect costs
Limits of funding	
Other eligibility requirements	<p>Minimum total budget: 175.000€</p> <p>Projects must be feasible under technical, economic and financial criteria</p> <p>The project must start after the CDTI application has been submitted</p> <p>Applicants to CDTI are requested to send an eligibility form to CDTI maximum <i>10 days after the deadline for pre-proposal submission.</i></p>
Type of funding (grant/loan/mixed/other)	Partially Reimbursable Grant
Funding rate	A maximum of 75% of the approved total budget, with a reimbursable part and a non-reimbursable part up to 33%
Geographical coverage	SPAIN

National/regional deadlines

Applicants are encouraged to contact CDTI's National Contact Point for getting advice about national funding rules before submitting a proposal. Additionally to the international application process, all Spanish applicants that aim to received CDTI's funding (projects coordinators and partners) must submit a formal application (with the information related to National Eligibility check) by way of CDTI's electronic submission system. This information has to be submitted to CDTI no later than 10 days after the closing date for pre-proposals and full proposals, respectively.

e-mail: carlos.toledo@cdti.es

Rusia (RU)

Name of the programme	Internationalization
Funding agency	FASIE
Beneficiaries	Small Innovative Enterprises (in accordance with the Federal Law 209, Article 4)
Thematic restriction	<i>none</i>
Type of research eligible for funding	Innovative projects with high degree of commercialization. The project should demonstrate high commercialization potential. When preparing the business-plan, the applicants should lay out the commercialization scheme, where FASIE requires to set out the figures for the main economic indicators: turnover, new working places and IP. Ideally, the revenues of the company (related to the specific product/technology being created within the project) should be 2-3-4 times more than the cost of the project during the 7 years after the start of the project (2 years of the project + 5 years afterwards). At least one IP should be protected at the end of the project.
Maximum duration of projects	24 months
Eligible costs	Salary, Sub-contractors, Equipment
Limits of funding	Up to 220 000 Euro per project
Other eligibility requirements	The Russian applicant has to submit the National application along with the MANUNET proposal. Funding is possible in case the national expertise is positive. It should be noted that companies with low turnover will have a very low chance to pass The company which has an "open" contract with FASIE when applying for is not eligible Companies which received funding from FASIE previously will have to provide additional materials showing the effectiveness of the funded projects; see for details information on the web-site: http://fasie.ru/programs/programma-internatsionalizatsiya/
Type of funding (grant/loan/mixed/other)	grant
Funding rate	required co-funding at the rate of 33,3% of the total costs of funding (50% of the amount of grant requested)
Geographical coverage	National
National/regional deadlines	2 weeks after the MANUNET deadline
More information	available at www.fasie.ru
Contact point	Olga Levchenko, levchenko@fasie.ru , +7 495 231 38 51

Gelderland (NL)

Name of the programme	Co-Financiering Europese Programma's
Funding agency	Provincie Gelderland
Beneficiaries	Small, medium and large companies, associations and foundations of companies. Research centres, universities and public entities only if subcontracted by the beneficiaries
Thematic restriction and other remarks	Smart Industry Agenda East Netherlands (BOOST)
Type of research eligible for funding	Application oriented industrial research and experimental development projects involving effective international collaboration.
Maximum duration of projects	24 months
Eligible costs	Staff costs (only staff participating in the project) External collaborations for R&D activities related to the project Costs for materials, supplies, etc. needed for the project. Other costs such as travelling, management and audatory costs till a maximum of € 5.000,-.
Limits of funding	Maximum grant amount: € 190.000,- for call 2018 Maximum grant amount per project: € 100.000,- Taxes are not eligible
Other eligibility requirements	The starting date of the project must be after the proposal submission
Type of funding (grant/loan/mixed/other)	Grant
Funding rate	50%
Geographical coverage	Gelderland (beneficiary companies have to be registered in the Province of Gelderland)
National/regional deadlines	The regional deadline will be fixed after selection of the proposals recommended for the second stage.
More information available at	www.smartindustryoost.nl
Contact point	Bart Heuts bart.heuts@oostnv.nl Phone: 06 – 22490826

Region of Western Greece (EL)

Name of the programme	Operational Programme Western Greece 2014-2020
Funding agency	Managing Authority of Region Western Greece
Beneficiaries	SME's active in Western Greece as main partners. Research centres and universities can be subcontractors or secondary partners
Thematic restriction	Western Greece RIS3 sectors
Type of research eligible for funding	Application oriented industrial research and experimental development projects involving effective international collaboration.
Maximum duration of projects	24 months
